

## **PRESS ANNOUNCEMENT** 16 July 2007

### **UNVEILING THE NEW BROCHURE FOR STAVERTON BY SEA DESIGN**

Following the hugely successful debut of the re-launched Staverton brand at Design Prima 2005, the latest brochure for the premium furniture brand is now available (enclosed).

The refreshed literature includes the latest additions to the Staverton repertoire including storage wall and an extended range of Staverton styled storage. As with all Staverton products, these are designed with specifiers and corporate clients firmly in mind. New images of Staverton's fully tooled factory in Devon are also included, showing state of the art machinery working seamlessly alongside our master craftsmen.

Having won the prestigious "Best in Book" category at Creative Review May 2006 for our first Staverton brochure, we once again worked with SEA Design to create our second edition. The brochure combines detailed product shots stunning site photography and SEA have continued to push the design boundaries with their creative mix of papers and print techniques.

If you would like a copy of this brochure posted to you, please email us at our principal office below.
